

PROFESSIONAL SUMMARY

Data Science undergraduate (B.Tech, Bennett University) with hands-on experience in Python, machine learning, and data analytics through academic projects and a Deloitte Data Analytics Job Simulation. Proficient in building ML pipelines, interactive dashboards, and database-backed desktop applications. Seeking an internship or entry-level role to apply analytical and problem-solving skills in a real-world data environment.

EDUCATION

B.Tech in Data Science — Bennett University, Greater Noida

2nd Year (In Progress)

Class XII — Darshan Academy, Meerut

85.2%

Class X — Darshan Academy, Meerut

88%

EXPERIENCE

Data Science Intern — Deloitte (Job Simulation, Forage) | 2025

- Applied practical data science techniques to real-world datasets as part of Deloitte Australia's Data Analytics simulation program.
- Executed end-to-end data analysis workflows including data cleaning, exploration, and insight generation.

PROJECTS

Predictive Maintenance System | Python, Machine Learning, Scikit-learn, Streamlit

- Engineered an ML model to predict equipment failures from sensor data using feature engineering and model evaluation techniques.
- Deployed an interactive Streamlit dashboard enabling real-time failure predictions and maintenance insights.

Sales Performance Dashboard | MS Excel, Pivot Tables, Data Visualization

- Designed a dynamic sales analytics dashboard leveraging Pivot Tables, Pivot Charts, and slicers to track revenue, profit, and regional KPIs.
- Identified top-performing products and sales trends, translating raw data into actionable business insights.

Employee Management System | Java Swing, MySQL, JDBC

- Built a desktop application implementing full CRUD operations on employee records, integrated with MySQL via JDBC.

Student Grade Management System | Java Swing, MySQL

- Automated grade calculation and report generation with MySQL-backed secure data storage and retrieval.

SKILLS

Programming Languages: Python, C++, Java, HTML, CSS, JavaScript (basics)

Data Science / ML: Pandas, NumPy, Matplotlib, Scikit-learn, Machine Learning, Data Mining

Databases: MySQL, SQL

Tools & Platforms: Tableau, Excel, Streamlit, GitHub, VS Code, Google Colab, IntelliJ IDEA

Core Subjects: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

CERTIFICATIONS

- Deloitte Australia Data Analytics Job Simulation — Forage | 2025
- Kanban in Practice — Infosys DTI | 2026
- Operating System Certification | 2026
